

The Blurple Fishbirds

Documenting the creation
of a full stack application
with .NET Core

Setting up

- Created a repo on Github.
- Updated Gitignore
- Added project with .Net to the cloned path
- Created Kanban board using Trello
 - Loaded requirements as cards

Dummy Data and prep

- Created and scripted the database
- Added records to each table per schema using SSMS.

NoelEvan321 Merge branch 'main' of <https://github.com/NoelEvan321/SAT-Team-Project>

583cd3a 18 minut

..

SAT_Team_Development.DATA.EF

Scaffolded all Controllers and Views for the .DATA.EF Model classes

SAT_Team_Development.UI.MVC

Merge branch 'main' of <https://github.com/NoelEvan321/SAT-Team-Project>

SAT_Team_Development.sln

Scaffolded Database Context and Models in the data layer

SAT Scheduling Tool

Workspace visible

Board

Power-UpsAutomationFilter

ENBJCShare

Backlog

Impliment Identity Samples

Update Navigation

Make Roles

Lock Down Controllers

Build Contact Form

Image Upload functionality

Tiled View - Cards

Style

Table View - Datatables.net

_Layout

- Updated all links in the shared _Layout file.
- Structured header and sidebar
- Established 'directory' for the application
- Cleaned vocabulary

```

Description Edit

Adding required features to the Layout

Brice was driving. Evan and JD were navigating. 18Jan2023

Evan was driving. Brice and JD were navigating. 19Jan2023

Made edits to the sidebar options: Administrative options and Students view

Show details

Activity

Add dropdowns, text fields

View Logic

- Cleaned the views to be centered and use the correct terminology
- Distinguished Index from other CRUD views
 - Implemented datatables.net
- Assigned access by role per Use-Case Diagram
 - {insert image around here}

```

31 </dd>
32 <dt class="col-sm-2">
33     @Html.DisplayNameFor(model => model.Curriculum)
34 </dt>
35 <dd class="col-sm-10">
36     @Html.DisplayFor(model => model.Curriculum)
37 </dd>
38 <dt class="col-sm-2">
39     @Html.DisplayNameFor(model => model.Notes)
40 </dt>
41 <dd class="col-sm-10">
42     @Html.DisplayFor(model => model.Notes)

Description

Edit

Brice drove. Evan on notes. JD navigated. 19Jan2023

Brought in datatables for filter and sort functionality in the Courses Index view.

JD drove for the create view.

Contact Form

- Updated the appsettings.json with functioning information
- Added a Contact ViewModel for form rendering.
- Brought in _config alongside _logger
- Adjusted all other necessary logic for post action

```
@model DAL.Team_Development.UI.NVC.Models.ContactViewModel
<div class="container">
  <br/>
  <br/>
  <div class="row">
    </div>
    <div class="col-xs-12 col-sm-7 col-md-7 col-md-offset-1 col-lg-offset-2 justify-content-center">
      <div class="section-title clear">
        <h3>Send me a message (Under Constuction)</h3>
        <span class="bar-dash"></span>
        <span class="bar-primary"></span>
      </div>
      <form asp-action="Contact" id="contact-form" class="row contact-form no-gutter">

              </div>
              </div> <!-- ./col- -->
              <div class="col-xs-12 col-sm-12">
                <div class="input-field message">
                  <span class="input-icon"><i class="tf-pencil2"></i></span>
                  <textarea asp-for="Message" id="message" class="form-control" placeholder="Write your message"></textarea>
                  <span asp-validation-for="Name" class="text-danger"></span>
                </div>
                </div> <!-- ./col- -->
                <div class="col-xs-12 col-sm-offset-4 col-sm-4">
                  <div class="input-field">
                    <span class="btn-border">
                      <button type="submit" class="btn btn-primary btn-custom-border text-uppercase">
                        Send Message
                        now
                      </button>
                    </div>
                  </div>
                </div>
              </div>
            </div>
          </div>
        </div>
      </div>
    </div>
  </div>
</div>
```

Testing and Wishing

- Improved styling for Landing page and Layout
- Conditional rendering by role
- Fixed ScheduledClassId create feature to be ClassInfo partial
- Reviewed the Edit submit for Enrollment and Scheduled Classes.
